

Create Node-RED Service

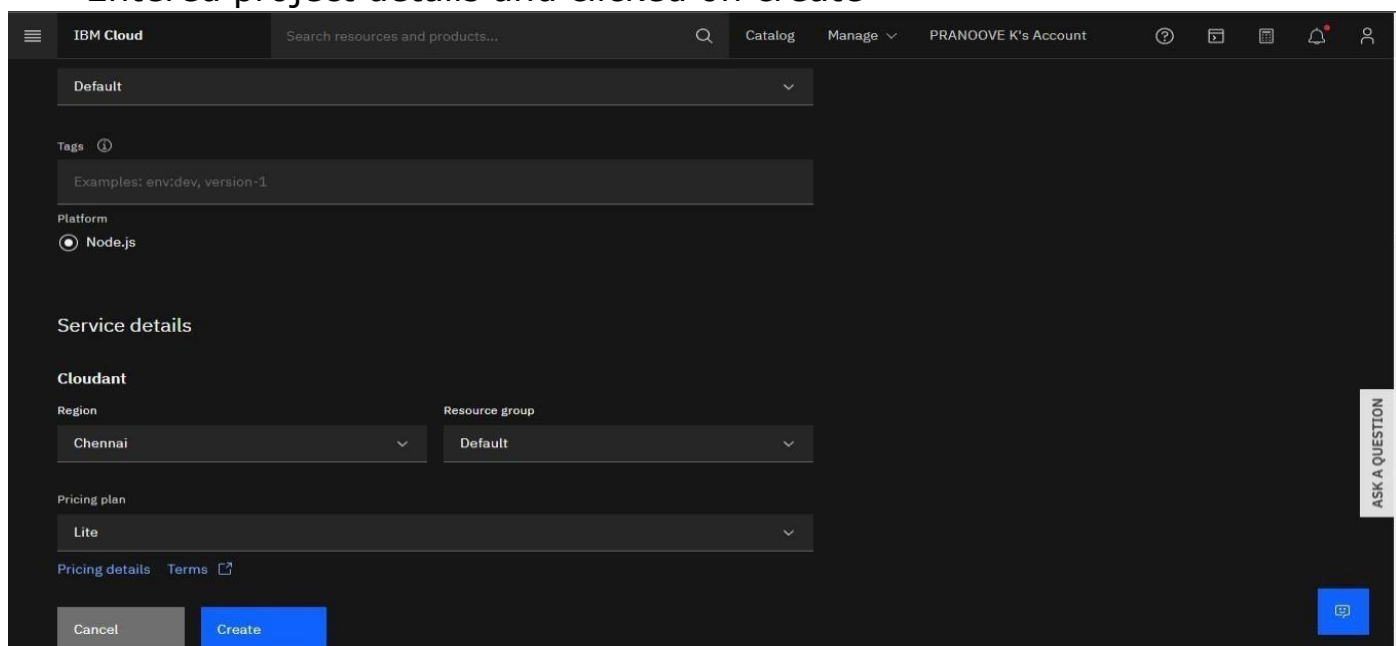

Aim: To create a web application create a Node-RED service.

Steps followed:

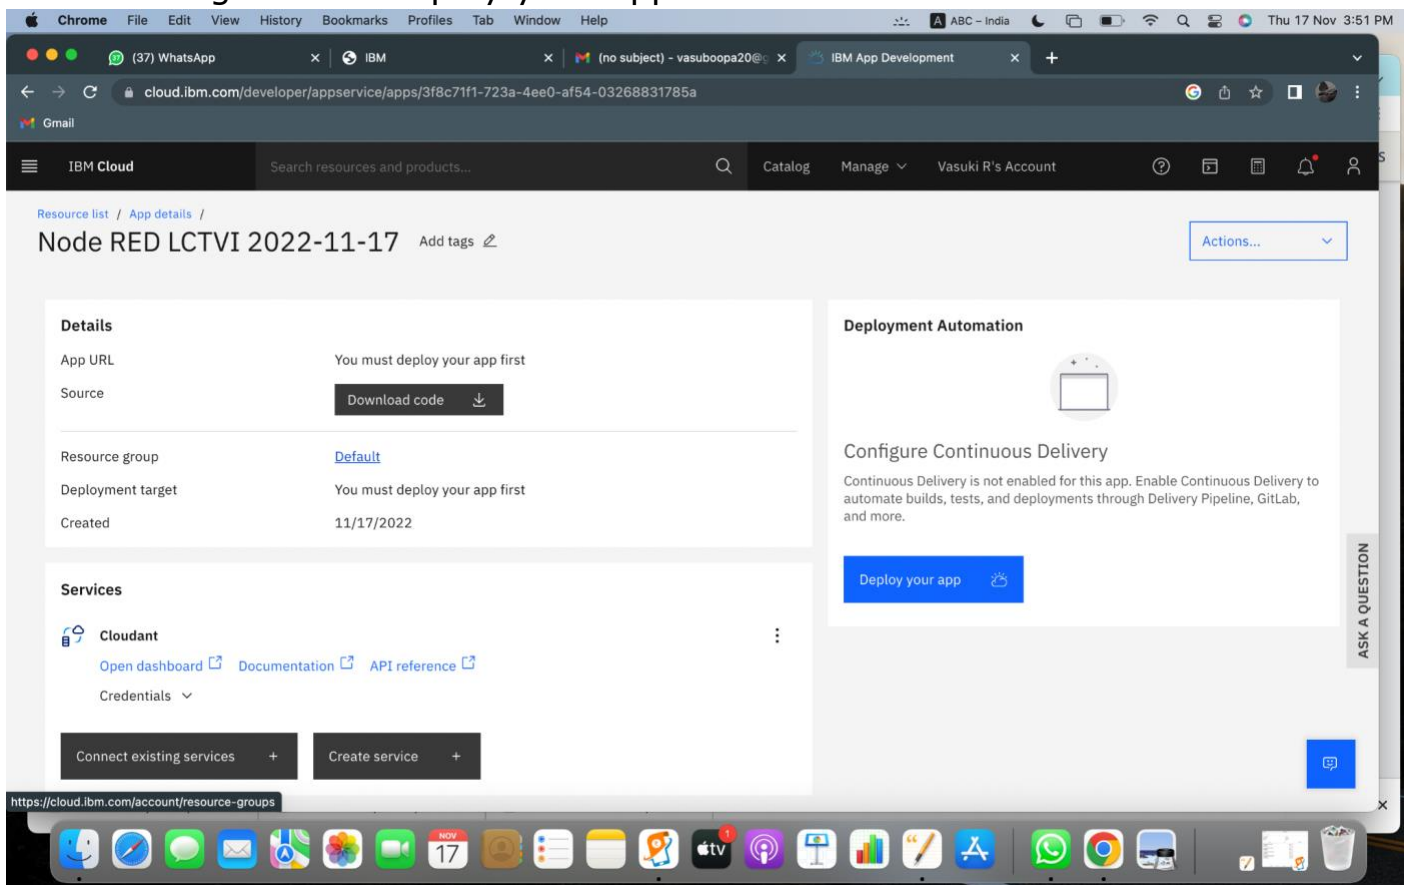

- Navigated to the App creation page

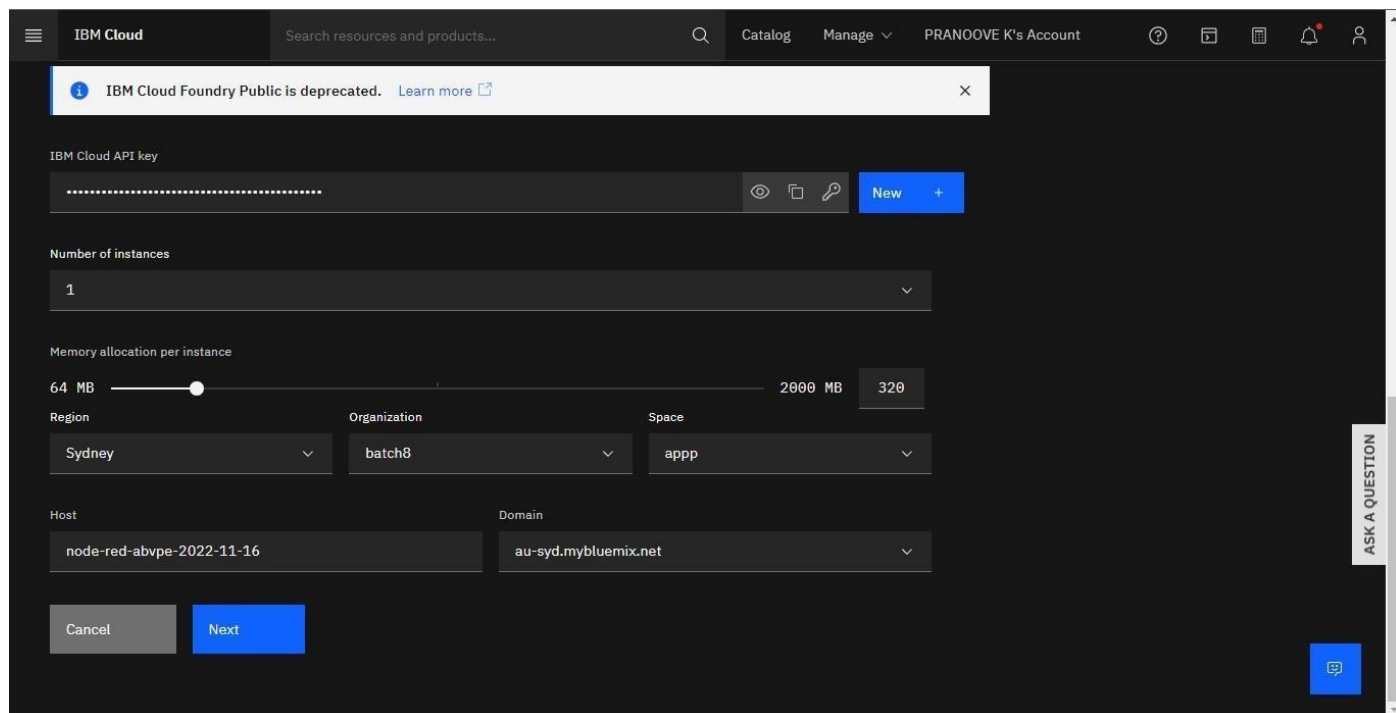

- Entered project details and clicked on create

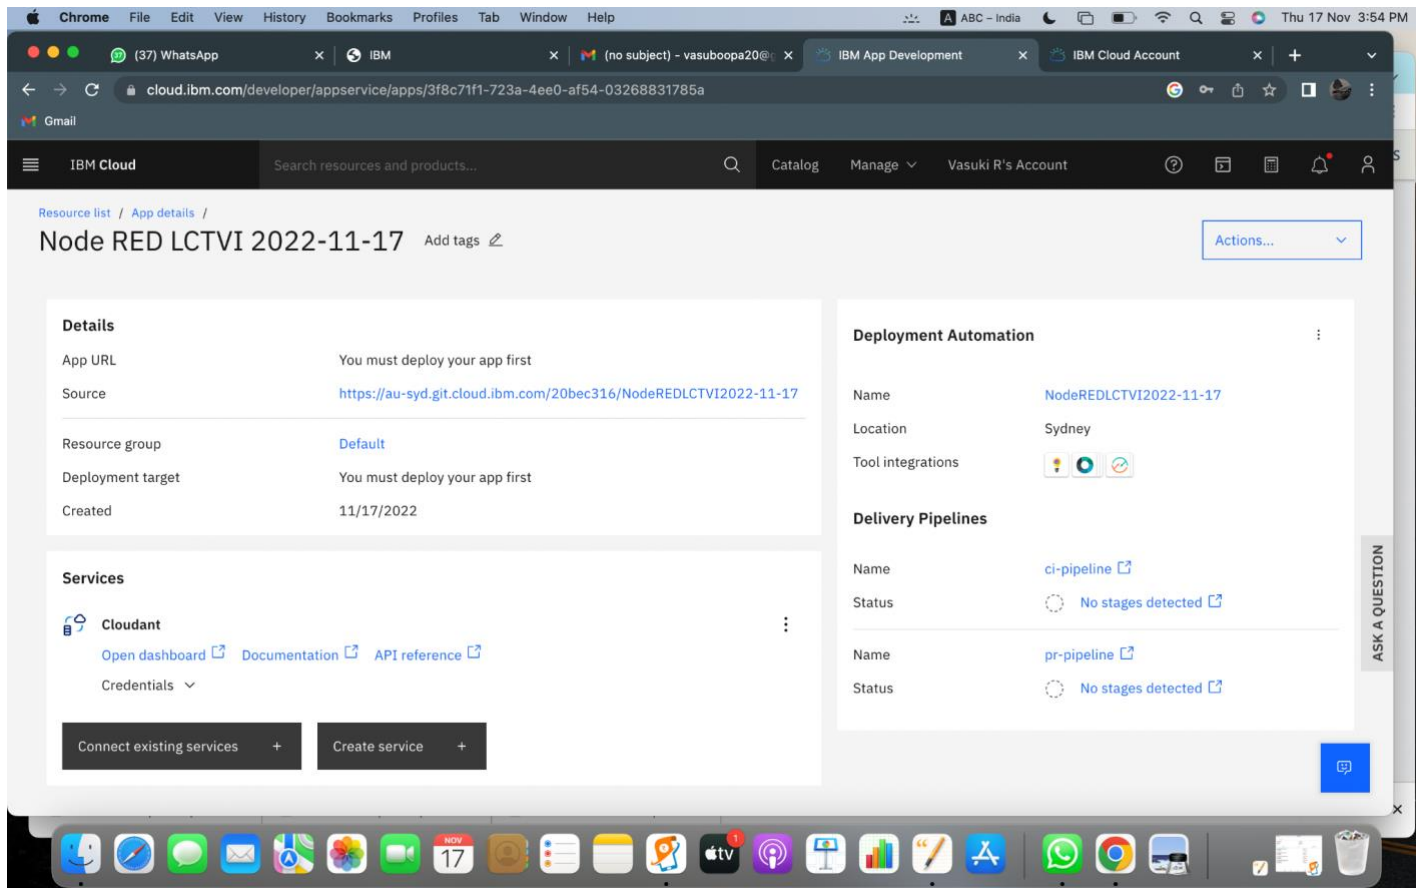

Clicking on the "Deploy your App" Button

- Setting up the environment and deploying the app

- Successfully deployed the app

- Welcomed by the instance editor

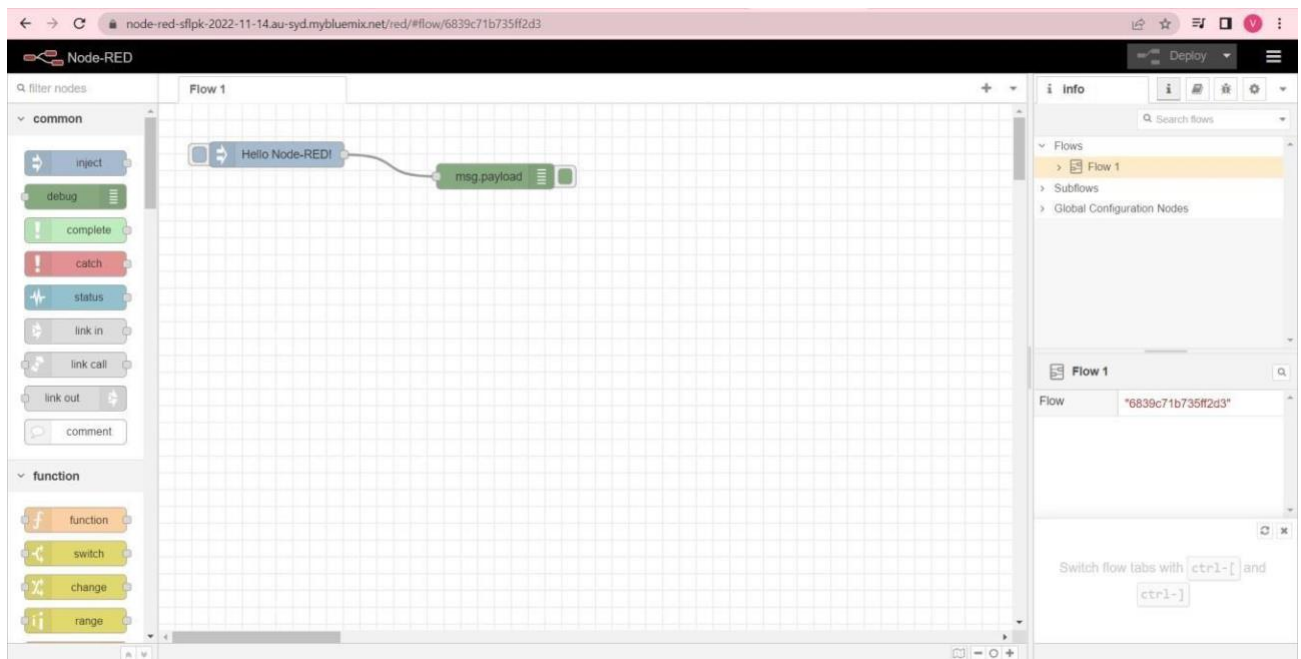

-

Welcome to your new Node-RED instance on IBM Cloud

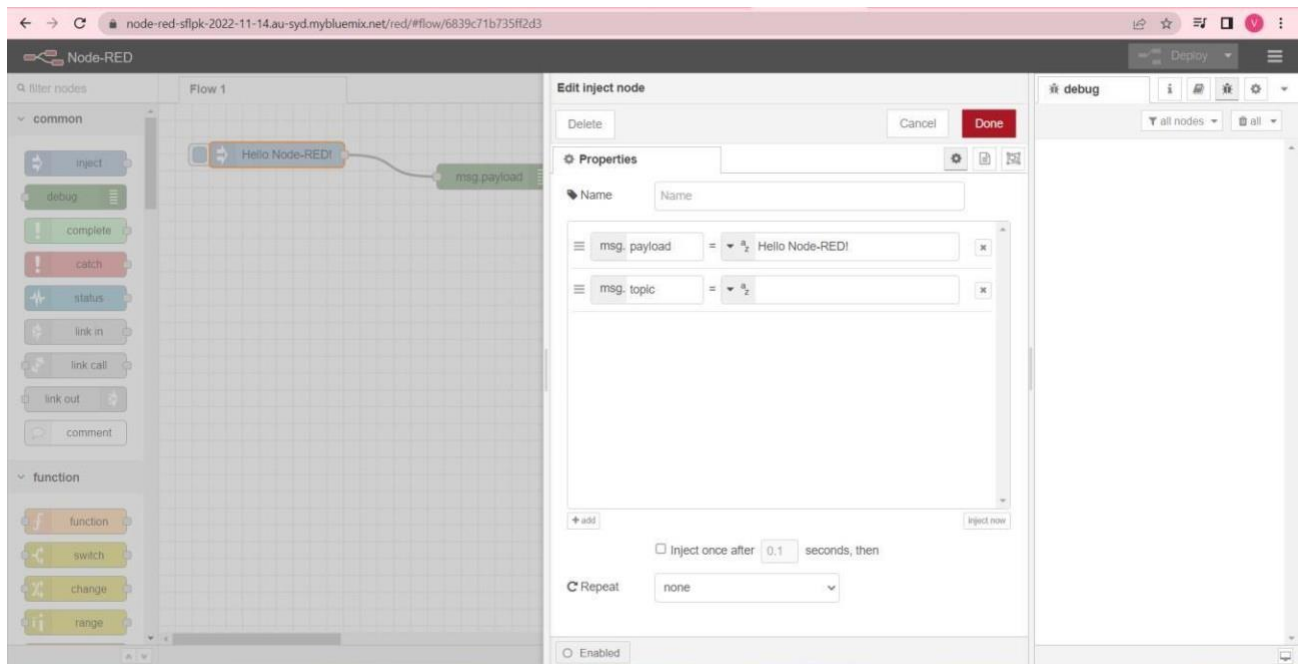

We know you're eager to start wiring up your flows, but first there are a couple of tasks you should do:

- Secure your Node-RED editor
- Learn how to install additional nodes

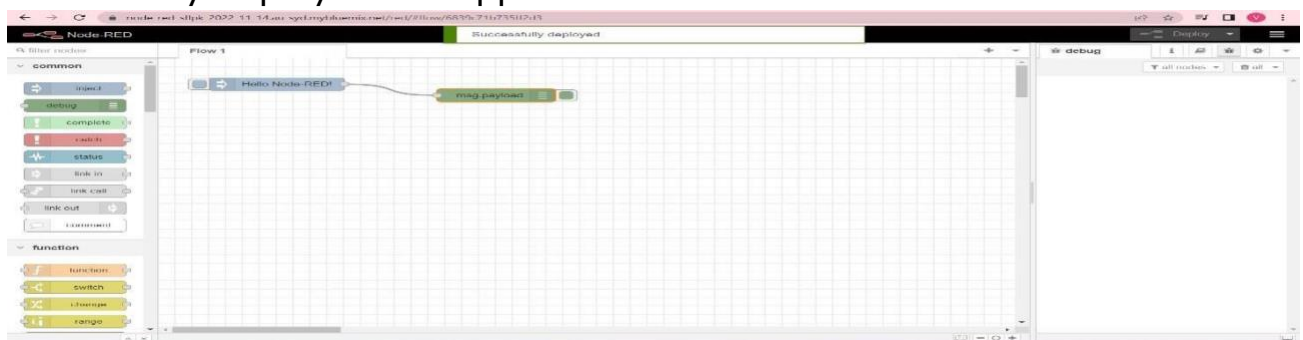

Dragged and dropped components into the editor

- Editing some values of the properties

- Successfully deployed the app

Result: Successfully created a NodeRED service on IBM Cloud
